

Identity as taonga:  
now and in the future

He taonga te tuakiri: āianeī, haere ake nei

# Workstream 4

## Biometrics and Privacy

Hon Terry Aulich  
**Chair**

John Duggan

Robin Whitaker

Who owns our biometrics or  
are they simply on loan to  
those who collect and use  
those biometrics?

What should citizens  
reasonably expect from those  
who collect and manage our  
biometrics?

Identity as taonga:  
now and in the future

He taonga te tuakiri: āianeī, haere ake nei

What has social media, terrorism and fraud and person movements (travel or displaced) done to affect our privacy environment?

Identity as taonga:  
now and in the future

He taonga te tuakiri: āianeī, haere ake nei

How can we build and  
maintain trust when our  
systems are becoming  
increasingly diverse and  
distributed?

What must we do to  
ensure the security of our  
identity ecosystem?

Ethical standards are  
inherent in trust: how do we  
bring these to life in our  
systems and policies?
